CAREER OBJECTIVE

As a pre-final year B.Tech student with a fervent enthusiasm for technology, I am actively pursuing career opportunities in Artificial Intelligence, Machine Learning, web development, software engineering, and programming. My goal is to secure a challenging role within a reputable organization where I can leverage my skills to contribute significantly to the company's growth. I am passionate about crafting user-friendly web applications and designing efficient software solutions. I aim to excel in these areas by applying my programming expertise.
